CHANGDE DRYWALL SANDER

**PROFESSIONAL
WALL/FLOOR TREATMENT TOOLS**

5000^{M²}

Factory occupies a wide area for 5000 square meters

18TH
2005-2023

18 years of deep cultivation in the tool industry

3^{LINES}

Have 3 automatic production workshops until 2023.

COMPANY PROFILE

TOP 500

Changde Tools located in Yongkang City, Zhejiang Province. We have been focusing on the development and manufacture of electric tools for interior decoration for ten years. Our main products are drywall sander, mixer and other household decoration tools. For now we have more than 50 employees, and the company covers an area of 5,000 square meters, with an annual production capacity of more than 300,000 sets, and output value of 50 million CNY.

Our products have passed the GS, ROHS, CE certification. Since its establishment, we have always been customer-oriented, with reliable quality and leading technology as its core competitiveness. We attach great importance and continues to increase investment in research and development so that the company has always maintained a leading position of technology in the same industry. Our products are exported to Germany, the United States, Southeast Asia, the Middle East and many other markets, and has reached comprehensive and long-term cooperation to achieve win-win results.

CHANGDE[®] DRYWALL SANDER

PROFESSIONAL
WALL/FLOOR TREATMENT TOOLS

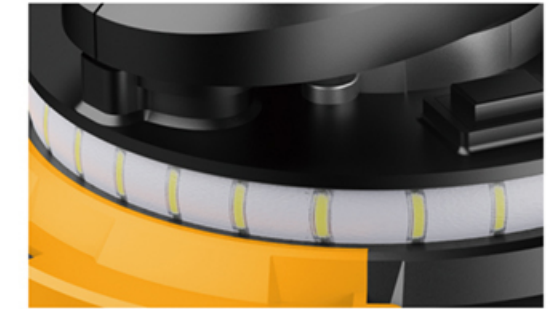

FEATURES

- 360 degree rotation grinding disc
- 360 degree lighting
- Separate led light switch
- Durable integrated grinding disc
- Suction adjusting switch
- Detachable sanding pad cover

Self-suction power
no need vacuum cleaner

FEATURES

- Long handle 225 wall polishing machine, high brightness dual light strip
- The disc is detachable and can be chamfered internally
- 1200 watt high-power motor meets the working needs of different environments
- The machine is foldable, smaller in size, and convenient to carry
- Angu silver copper reinforced commutator
- Imported material brush
- The light strip switch is more convenient to operate on the handle
- The length of the extra long telescopic rod can reach 1.8 meters
- Reasonable sealing structure without dust leakage

- Efficient polishing, shorter working hours, and more efficient work
- All copper wire high-quality motor, high temperature resistance, strong power, and more powerful polishing

Connected vacuum cleaner

C7180

ACCESSORIES

FEATURES

- High power, ultra strong wind power, fast removal of fallen leaves, simple, efficient, time-saving, and labor-saving
- Increasing copper wire for high-speed motors greatly improves work efficiency
- Large intake air volume grid wind gathering design, surging wind, easy to handle multiple scenarios
- Increase the power of the air outlet and easily blow away various types of dust, solving various problems
